# ABOUT US

Shanghai Yesion Industrial Co., Ltd. was established in 2008. The factory is located in Jiaxing, Zhejiang, which is the only professional coated paper manufacturer in China covering pulp and papermaking, paper logo, and digital printing media. The sales network by Yesion covers North America, South America, the Middle East, Western Europe and Southeast Asia. Our mission is to maximize the profitability and competitiveness of our international clients. If you are interested in any of our products or would like to custom orders, please do not hesitate to contact us at any time. Also, if you have a brand, we can do OEM for you. We look forward to establishing a successful business relationship with you all over the world in the near future.

Our photo paper factory has a number of automatic wide-width coating production lines, a group of excellent technical personnels and managers. Our factory has imported foreign advanced printing media production technology and has an advanced R&D and product testing center. Our company has also passed ISO9001 quality system and ISO 1400 environmental management system certification. As the largest media factory of inkjet printing consumables in China, Yesion has continuously extended new products in the original traditional photo paper industry. In addition to the traditional high glossy photo paper and RC photo paper, in recent years, Yesion has also invested a huge amount of research & development and production in adhesive inkjet printing consumables, such as inkjet printing self-adhesive photo paper, PP self-adhesive (high-gloss and matte), PET transparent self-adhesive (waterproof and non-waterproof), PET holographic and inkjet self-adhesive printing paper with special textures. Furthermore, our products have been well received by the market.

## WE PROVIDE CUSTOM BACK PRINTING SERVICE

## ● APPLICATION

At present, photo paper is widely used in the market for professional image output fields such as wedding photography and children's photography; as well as advertising materials, menus, business cards, resumes, and various public fields for home office use.

## STORAGE

1. Store in seal (try to keep the original packaging)
2. Sun protection: keep in a cool place, avoid direct sunlight
3. Moisture-proof: paper is very sensitive to humidity, the suitable storage temperature is 15~35°C, and the storage humidity is lower than 60%RH
4. Anti-folding: placed horizontally to avoid stacking and folding, which will affect printing.

## VALIDITY PERIOD

The shelf life is 2 years in the environment that meets the storage conditions
